What is AI in My Life?

AI IN MY LIFE

- Workshop series on Artificial Intelligence
- Developed by ADAPT research centre and partners
- Designed to help students navigate the 'Age of AI'

Our Partners:

What you'll learn today

AI IN MY LIFE

- Learn about AI and how it's used
- Uncover some of the ethical and privacy implications of AI
- Evaluate the role of AI in your life and in society

What is AI?

Artificial intelligence refers to **many different technologies** that are designed to **accomplish tasks** that can **otherwise be only carried out by human minds**, for example identifying patterns, recognising images, understanding languages or solving problems.

What is AI?

Deepfakes

Could Deepfakes be used for good?

What's your data worth?

This work is licensed under a [Creative Commons Attribution-NonCommercial-ShareAlike 4.0 International License](https://creativecommons.org/licenses/by-nc-sa/4.0/)

Do you care about your data?

- Do you mind that Mark Zuckerberg knows your name?
- Do you mind that he can see your Insta/WhatsApp account (even though you didn't add him as a friend)?
- Do you mind that he knows your top 5 friends?
- Do you mind that he knows your top 5 posts?
- What about if he knows how you reacted to others' posts?
- What about your DMs?

Do you care about your data?

- Do you mind that **your teacher** knows your name?
- Do you mind that (s)he can see your Insta/WhatsApp account (even though you didn't add him as a friend)?
- Do you mind that (s)he knows your top 5 friends?
- Do you mind that (s)he knows your top 5 posts?
- What about if (s)he knows how you reacted to others' posts?
- What about your DMs?

Protecting Your Data while using AI Tools

Protecting Your Data while using AI Tools

2. Watch what you share

ChatGPT

Tips for getting started

Ask away

ChatGPT can answer questions, help you learn, write code, brainstorm together, and much more.

Don't share sensitive info

Chat history may be reviewed or used to improve our services. Learn more about your choices in our [Help Center](#).

Check your facts

While we have safeguards, ChatGPT may give you inaccurate information. It's not intended to give advice.

Okay, let's go

CHATGPT

OpenAI privacy policy:

Protecting Your Data while using AI Tools

3. Change your settings

What data is collected and how it's used

Google collects your Gemini Apps conversations, related product usage information, info about your location, and your feedback. Google uses this data, consistent with our [Privacy Policy](#), to provide, improve, and develop Google products and services and machine-learning technologies, including Google's enterprise products such as Google Cloud.

Gemini Apps Activity is on by default if you are 18 or older. Users under 18 can choose to turn it on.

If your [Gemini Apps Activity setting](#) is on, Google stores your [Gemini Apps activity](#) with your Google Account for up to 18 months. You can change this to 3 or 36 months in your [Gemini Apps Activity setting](#). Info about your location, including the general area from your device, IP address, or Home or Work addresses in your Google Account, is also stored with your Gemini Apps activity. Learn more at [g.co/privacypolicy/location](#).

How human reviewers improve Google AI

To help with quality and improve our products (such as generative machine-learning models that power Gemini Apps), human reviewers read, annotate, and process your Gemini Apps conversations. We take steps to protect your privacy as part of this process. This includes disconnecting your conversations with Gemini Apps from your Google Account before reviewers see or annotate them. **Please don't enter confidential information in your conversations or any data you wouldn't want a reviewer to see or Google to use to improve our products, services, and machine-learning technologies.**

Configuring your settings

[Visit your Google Account](#) to access settings and tools that let you safeguard your data and protect your privacy.
