

SAMR: AI Edition

Use this tool to decide how AI can help you, like a teammate.

S = Simple Help

AI helps me do the same thing, just quicker.

Example: "I asked AI to fix my spelling."

Example: "I used AI to type it for me."

A = A Little Better

AI gives me ideas or improves my work.

Example: "I asked AI to make my sentences sound clearer."

Example: "I got a few better words from AI."

M = Make It Together

I work with AI to change or improve my idea.

Example: "I told AI my topic, and we came up with ideas together."

Example: "I had a rough draft, and AI helped me turn it into a script."

R = Really New

AI helps me do something I couldn't do before.

Example: "I had AI pretend to be a person from history so I could interview them."

Example: "I made a choose-your-own-adventure story using AI."

Before you start, ask yourself:

What part will I do?

What part will AI help with?

Will I still be proud of the final work?
