Sample AI Code of
Conduct

The resources below are ***just a starting place*** and not intended to represent the full breadth or depth of this rapidly evolving field. We encourage you to conduct your own research, question critically, and share what you discover.

I'm new to AI and I'd love to learn more. Where might I start?

- [A People's Guide to AI](#), a workbook we like by Mimi Onuoha and Mother

Cyborg,
published by
Allied Media
Projects

- Generative AI
Primer, an
accessible
overview of
Generative AI

models,
explained with
a minimum of
math and
jargon, an
accessible and
in-depth
article by
Timothy B Lee
and Sean Trott
- Models All the
Way Down, an
introduction
and
investigation

into AI training
data sets by

(which we at
AIPP oppose)

**I'm a high school
teacher. Are there
resources
specifically for me?**

- The AI
Education
Project has
lesson plans
ranging from 5
min warmups
to full day
projects on a
range of
topics, all

created
specifically for
high school
students.

- AI Literacy Lessons for Grades 6-12 from Common Sense includes 8 short lessons introducing AI.
- AI Resources from Stanford's CRAFT include a collection of 45-60 minute lessons for high school students on key topics, including algorithmic bias and privacy.
- AI4ALL has in-depth lesson plans on a variety of topics, each with a comprehensive teaching

guide.

- MIT RAISE's
DAILY
Workshop
provides
visual, hands-
on activities
that help
explain more
technical
topics related
to AI. Although
designed for
middle school
students,
these activities
are engaging
and go into
impressive
depth.

**Who are some
people writing
about these topics?**
